

ACADEMIC DETAILS				
Degree	Specialization	Institute	Year	CPI/%
B.Tech.	Computer Science and Engineering	IIT Gandhinagar	2023-2027	8.30/10
Class XII	Physics, Chemistry, Maths	White Leaf Public School	2022-2023	94.40%
Class X	—	Modern Delhi Public School	2020-2021	96.60%

- INTERNSHIPS
- Software Engineering Intern, Intentyfi

[February '26 - July '26]

 - Architected the **Case Management Application (CMA)** from scratch using **Rust, Axum, PostgreSQL, Next.js, TypeScript, and Tailwind CSS**, enabling case monitoring, reviewer dashboards, and Human-in-the-Loop (HITL) oversight.
 - Built production **RAG infrastructure** covering document extraction, chunking, Gemini embeddings, PostgreSQL vector storage, and similarity retrieval for grounded enterprise knowledge retrieval.
 - Implemented an end-to-end **HITL pause/resume protocol** (Approve, Reject, Escalate, Reopen) and security controls including **PII masking, multi-layer prompt-injection defense**, and AST-based SQL query validation.
 - Founder's Office - Technology, Aback.ai

[June '25 - February '26]

 - Partnered directly with founders to lead technical architecture, product engineering, and automated workflows across early-stage AI products from 0-to-1 concept to production deployment.
 - Built and launched **AbackTools.com** (~500 clicks/day) and developed core full-stack modules for **Invoice Management Software, Inventory Systems, and an AI Recruitment Portal**.
 - Development Intern, Curlsek AI Technologies Pvt. Ltd.

[March '25 - July '25]

 - Developed the core Proof-of-Concept (PoC) for an AI cybersecurity portal by building autonomous **AI agents to detect vulnerabilities (SQL Injection, Path Traversal)** and automate security testing workflows.
 - Designed and implemented backend services using **Spring Boot and MongoDB**, establishing secure authentication, **role-based access control (RBAC)**, and session management.

- TECHNICAL PROJECTS
- ControlPlane.ai - Real-Time AI Governance Proxy

[GitHub]

[Accenture Challenge '26]

 - Led team for **Accenture Innovation Challenge 2026** ("Reinvent with AI"), architecting a sub-10ms reverse-proxy AI governance layer with a synchronous **fast path in Rust (<10ms)** using Hyper and lock-free caching.
 - Implemented asynchronous **shadow path (<2s)** with 13 automated checks (hallucination scoring, **Presidio PII detection**, prompt injection filtering) and a real-time **Next.js 16 SSE dashboard**.
 - YourCode - Terminal Coding Agent

[GitHub]

[Live Website]

[2026 - Present]

 - Building an open-source **terminal-based coding agent monorepo** (CLI, server, DB, shared packages) to let developers write code and manage AI-assisted sessions directly from the shell.
 - Implemented a **client-side distributed tool execution runtime** streaming tool specifications (file reads, AST grep/glob search, shell commands) with strict local path confinement to ensure source code privacy.
 - Adani FinTell Suite - Enterprise Invoice Platform

[GitHub]

[Finnovate Hack '25]

 - Led runner-up team at **Adani Finnovate Hackathon 2025**, building an enterprise document processing pipeline using **Google Gemini AI** (80%+ **extraction accuracy** across multi-format bulk invoices).
 - Implemented compliance verification including real-time GST portal verification, regulatory tax validation, arithmetic checks, and AI-derived price anomaly benchmarking.

- SKILLS SUMMARY
- Languages:** TypeScript, JavaScript, Python, Rust, SQL, C/C++, HTML, CSS
 - Frameworks & Web:** Next.js (App Router, SSR), React.js, Tailwind CSS, tRPC, Prisma ORM, REST APIs, SSE, Angular
 - AI / ML / Agentic Systems:** LLM Orchestration (Gemini, OpenAI), RAG Pipelines, Vector Retrieval (pgvector), Multi-Agent Runtimes, Tool-Calling, Human-in-the-Loop (HITL), PII Masking, Prompt Injection Defense
 - Cloud & Systems:** PostgreSQL, Rust (Axum, Hyper), FastAPI, Google Cloud Platform (Cloud Run, Cloud SQL, Vertex AI), Docker, Linux

- ACHIEVEMENTS
- Secured **All India Rank 1505** (top 1% out of 1,80,372+ candidates) in **JEE Advanced 2023** · **99.65 percentile** in **JEE Main 2023**.
 - Team Leader & Runner-Up, **Adani Finnovate Hackathon 2025** · Team Leader, **Accenture Innovation Challenge 2026** ("Reinvent with AI").
 - Awarded **Dean's List** at IIT Gandhinagar · Active on **LeetCode** ([droll](#)) and **Codeforces** ([droll](#)).
